The Patient Equation Glen de Vries, 2020-08-11 How the data revolution is transforming biotech and health care, especially in the wake of COVID-19—and why you can't afford to let it pass you by We are living through a time when the digitization of health and medicine is becoming a reality, with new abilities to improve outcomes for patients as well as the efficiency and success of the organizations that serve them. In *The Patient Equation*, Glen de Vries presents the history and current state of life sciences and health care as well as crucial insights and strategies to help scientists, physicians, executives, and patients survive and thrive, with an eye toward how COVID-19 has accelerated the need for change. One of the biggest challenges facing biotech, pharma, and medical device companies today is how to integrate new knowledge, new data, and new technologies to get the right treatments to the right patients at precisely the right times—made even more profound in the midst of a pandemic and in the years to come. Drawing on the fascinating stories of businesses and individuals that are already making inroads—from a fertility-tracking bracelet changing the game for couples looking to get pregnant, to an entrepreneur reinventing the treatment of diabetes, to Medidata's own work bringing clinical trials into the 21st century—de Vries shares the breakthroughs, approaches, and practical business techniques that will allow companies to stay ahead of the curve and deliver solutions faster, cheaper, and more successfully—while still upholding the principles of traditional therapeutic medicine and reflecting the current environment. How new approaches to cancer and rare diseases are leading the way toward precision medicine What data and digital technologies enable in the building of robust, effective disease management platforms Why value-based reimbursement is changing the business of life sciences How the right alignment of incentives will improve outcomes at every stage of the patient journey Whether you're a scientist, physician, or executive, you can't afford to let the moment pass: understand the landscape with this must-read roadmap for success—and see how you can change health care for the better.

*School of Velocity* Eric Beck Rubin, 2016-08-23 \*\*Shortlisted for the 2017 Kobo Emerging Writer Prize \*\*Shortlisted for the 2017 Vine Awards for Canadian Jewish Literature \*\*Finalist for the Frank Hegyi Award for Emerging Authors \*\*A CBC Books Best Canadian Debut Novel 2016 \*\*A Guardian (UK) Best Book 2016 \*\*An Observer (UK) Best Book 2016 \*\*An Amazon (UK) 2016 Rising Star (Best Debuts) A wrenching and deceptively spare debut novel about an electric friendship between two boys that slowly reveals itself as a deep and lifelong love. Jan de Vries is a virtuoso pianist who would be in the prime of his

career but for the crippling auditory hallucinations that have plundered his performances and his mind. As the disorder reaches its devastating peak the walls Jan has built around him crumble, rendering him unable to repress the overwhelming flood of memories and the troves of unspoken words that linger between him and his childhood best friend, Dirk Noosen, with whom he lost touch long ago. He is faced with only one recourse: to head home and confront him. With a singular voice and a masterful balance of emotional resonance and restraint, Eric Beck Rubin tells the tender story of Jan's obsessive friendship with the charismatic, irreverent raconteur Dirk as the reader breathlessly awaits their reunion. This luminous novel is about music, repression and regret; about adolescence, sex and friendship, and, ultimately, about the kind of love that lasts a lifetime.

**Relational Coaching** Erik de Haan, 2011-03-03 Manfred Kets de Vries, Professor of Leadership Development, INSEAD: "The author takes us on an exciting journey to explain what coaching is all about, providing us with a roadmap that is second to none. Anyone interested in better understanding what coaching is all about, would do well to have a serious look at this book." David Megginson, Professor of Human Resources Development, Sheffield Hallam University: "From a vivid personal story just before the first chapter to the fascinating mass of data in the appendices, this book is a captivating read about the concrete particulars of coaching and the theoretical perspectives we can use to make sense of them. Erik de Haan makes a case for relational coaching and prescribes clearly what his research and the tradition within which it is embedded can tell practitioners in the field." Bruce E. Wampold, Professor of Counseling Psychology, University of Wisconsin: "I am thrilled that there is a coaching book that emphasizes the coachee and the relationship. In Relational Coaching, Erik de Haan places the emerging profession on a strong foundation that emphasizes the interpersonal aspects of the endeavour." Relational Coaching is a radically different way of looking at coaching that puts the relationship, from the perspective of the coachee, at the centre. Exploring both age-old tradition and reliable studies in recent decades, Relational Coaching gives the modern executive coach ten commandments to help improve his or her practice. The book demonstrates how each of these commandments is underpinned by sound quantitative research. The book begins by giving a complete overview of the profession and the latest developments in coaching. The second part of the book presents new quantitative and qualitative research into effects and experiences of coaching. Part three contains an introduction to the activities that make a good coach and the mechanisms used to verify coaches' understanding of their profession. Other topics covered include training, accreditation, supervision and recommended literature.

**The Van Gogh Blues** Eric Maisel, PhD, 2012-08-22 Creative people will experience depression — that's a given. It's a given because they are regularly confronted by doubts about the meaningfulness of their efforts. Theirs is a kind of

depression that does not respond to pharmaceutical treatment. What's required is healing in the realm of meaning. In this groundbreaking book, Eric Maisel teaches creative people how to handle these recurrent crises of meaning and how to successfully manage the anxieties of the creative process. Using examples both from the lives of famous creators such as van Gogh and from his own creativity coaching practice, Maisel explains that despite their inevitable difficulties, creative people possess the ability to forge relationships, repair themselves, and find meaning in their work and their lives. Maisel presents a step-by-step plan to help creative people handle their special brand of depression and rediscover the reasons they are driven to create in the first place.

*Swallowed by the Sea* Graeme Henderson, 2016-10-01 Published in Association with the Western Australian Museum 'Swallowed by the Sea' tells the stories of Australia's greatest and most tragic shipwrecks, lost in raging storms, on jagged reefs, under enemy fire, or through human error, treachery or incompetence. It includes wrecks from all corners of Australia, from 1622 to as recently as 2010, from clipper ships to colonial schooners to East Indiamen. Read about the oldest known wreck in Australian waters, the Tryal, driven into a maze of sunken rocks by the inept Captain Brookes, and about the loss of emigrant barque Cataragui, which struck a reef off King Island in the middle of a stormy night, drowning more than 400 people. The violent wrecking of ships is only part of the story. Maritime archaeologist Graeme Henderson has personally located and dived many of the shipwrecks in this book. Alongside his accounts are colour underwater photographs of the dive sites with specially written recollections by members of the diving crew.

*Hedge-Rider* Eric De Vries, 2008-06 Hedgerider: Witches and the Underworld is a re-interpretation of (Hedge-)Witchery. Drawing from an extensive historical, folkloric and mythological body it re-attributes and re-defines Witchery as a Heathen Cult centred around the journey to the Underworld and contact with the Unseen. With the insights into Cosmology, Philosophy and Practice this book provides a working body of Heathen Witch-lore, designed to transform the essence of humanity in something greater through contact with our Fetch and the Underworld itself.

On the Necessity of Gardening Laurie Cluitmans,2021-11-30 *On the Necessity of Gardening* tells the story of the garden as a rich source of inspiration. Over the centuries, artists, writers, poets and thinkers have each described, depicted and designed the garden in different ways. In medieval art, the garden was a reflection of paradise, a place of harmony and fertility, shielded from worldly problems. In the eighteenth century this image tilted: the garden became a symbol of worldly power and politics. The Anthropocene, the era in which man completely dominates nature with disastrous consequences, is

forcing us to radically rethink the role we have given nature in recent decades. There is a renewed interest in the theme of the garden among contemporary makers. It is not a romantic desire that drives them, but rather a call for a new awareness of our relationship with the earth. Through many different essays and an extensive abecedarium, *On the Necessity of Gardening* reflects on the garden as a metaphor for society.<sup>00</sup>Exhibition: Centraal Museum, Utrecht, The Netherlands (11.09.2021 ? 09.01.2022).

**The Christmasaurus and the Winter Witch** Tom Fletcher, 2019-10-03 The spellbinding sequel to Tom Fletcher's bestselling magical adventure, *The Christmasaurus*. She is older than time itself, yet still as young as tomorrow. She is known only as the Winter Witch.' One year has passed since William Trundle's incredible adventure with the most extraordinary dinosaur: the Christmasaurus. Now, William is swept back to the magical North Pole, where he meets the mysterious, icy Winter Witch - whose power to control time allows Santa Claus to make the long journey all around the world every Christmas Eve. And when they learn that the fate of Christmas itself hangs in the balance, William and the Christmasaurus must work with the Winter Witch to protect it... Full of magic and music, humour and heart, and a friendship like no other, *The Christmasaurus and the Winter Witch* is the most enchanting Christmas read for the whole family by Tom Fletcher, star of BBC's *Strictly Come Dancing*

Art in History/History in Art David Freedberg, Jan de Vries, 1996-07-11 Historians and art historians provide a critique of existing methodologies and an interdisciplinary inquiry into seventeenth-century Dutch art and culture.

The Weight of All Flesh Eric L. Santner, Bonnie Honig, Peter Eli Gordon, Hent de Vries, 2016 Eric Santner offers a radically new interpretation of Marx's labor theory of value as one concerned with the afterlife of political theology in secular modernity. What Marx characterized as the dual character of the labor embodied in the commodity, he argues, is the doctrine of the King's Two Bodies transferred from the political theology of sovereignty to the realm of political economy. This genealogy, leading from the fetishism of the royal body to the fetishism of the commodity, also suggests a new understanding of the irrational core at the center of economic busyness today, its 24/7 pace. The frenetic negotiations of our busy-bodies continue and translate into the doxology of everyday life the liturgical labor that once sustained the sovereign's glory. Maintaining that an effective critique of capitalist political economy must engage this liturgical dimension, Santner proposes a counter-activity, which he calls paradoxological. With commentaries by Bonnie Honig, Peter Gordon, and Hent de Vries, an introduction by Kevis Goodman, and a response from Santner, this important new book by a leading cultural theorist and scholar of German literature, cinema, and history will interest readers of political theory, literature and literary theory, and religious studies.

**The Leadership Shadow** Erik de Haan, Anthony Kasozi, 2014-08-03 In today's fast paced, interconnected, and

mercilessly competitive business world, senior executives have to push themselves and others hard. Paradoxically, to succeed as leaders, they also need to relate to others very well. Under stress and challenge, the qualities executives have relied on to get them to the top and to achieve outstanding results can overshoot into unhelpful drives that lead to business and personal catastrophes. The Leadership Shadow draws on the lived experience of executives to make sense of what actually happens when their drivers overshoot and they act out the dark side of leadership. It shows how executives can find stability in the face of uncertainty, resilience in the face of gruelling demand, and psychological equilibrium as a leader in the face of turbulence.

**Opportunistic Intracellular Bacteria and Immunity** Lois J. Paradise, Herman Friedman, Mauro Bendinelli, 2006-04-11

In this volume, the pathogenesis and immune reaction of these intracellular infections is featured, as are the most typical problems related to antimicrobial chemotherapy, and current approaches to their solution.
