A Case for the American People Norman Eisen, 2020-07-28 The Democrats' special impeachment counsel on the House Judiciary Committee lays out President Trump's shocking pattern of betrayals, lies, and high crimes, arguing articles of impeachment to the ultimate judges: the American people. In his behind-the-scenes account of the attempts to bring the president to justice—from filing the very first legal actions against him, through the Mueller report, to the turbulent impeachment and trial, to the president's ongoing wrongdoing today—Norman Eisen, at the forefront of the battle since the day of Trump's inauguration, pulls back the curtain on the process. He reveals ten proposed articles of impeachment, not just the two that were publicly tried, all of which he had a hand in drafting. He then guides us through Trump's lifelong instincts that have dictated his presidency: a cycle of abuse, corruption, and relentless obstruction of the truth. Since taking the oath of office, Donald Trump has been on a spree of high crimes and misdemeanors, using the awesome power of the presidency for his own personal gain, at the expense of the American people. He has inflamed our divisions for his electoral benefit, with flagrant disregard for the Constitution that makes us America. Each step of the way, he has lied incessantly, including to cover up his crimes. And yet he remains in the country's highest office. Congress, federal and state prosecutors, and courts have worked to hold the president accountable for his myriad offenses—with some surprising successes and devastating failures. Eisen, who served as special counsel to the House Judiciary Committee for Trump's impeachment and trial, presents the case against Trump anew. Eisen's gripping narrative and rousing closing argument—at turns revelatory, insightful, and enraging—will inspire our nation of judges. History has proven that this president's nefarious behavior will continue, no matter the crisis. But, as Eisen's candid retelling affirms, there is an ultimate constitutional power that transcends the president's, a power that can and must defeat him if our nation is to survive. The verdict of the American people remains in the balance. It is time for us to act.

The Intelligent Homosexual's Guide to Capitalism and Socialism with a Key to the Scriptures Tony Kushner, 2018-10-09 Gus Marcantonio, a retired longshoreman, summons his adult children home to the family's Brooklyn brownstone to discuss his recent decision to commit suicide. With his trademark mix of soaring intellect, searing emotion, and biting wit, legendary playwright Tony Kushner unfurls an epic tale of revolution, radicalism, family, love, sex, politics, real estate, unions and debts both unpaid and unpayable. With sweeping themes as hefty as its title, *IHo* (as it has been nicknamed) explores the dense

and vexing issues that stem from the betrayal of a failed ideology and the challenges of family connectedness. This cerebral mammoth of a play asks what is left when the long-held belief systems that construct and inform one's identity prove to be empty.

Corrupt Schools, Corrupt Universities Jacques Hallak, Muriel Poisson, International Institute for Educational Planning, 2007 This publication draws conclusions from IIEP's research into ethics and corruption in education. It defines the key concepts of corruption, transparency, accountability and ethics and identifies the main opportunities for corruption in education. It then looks at tools that can be used to assess corruption problems such as perception and tracking surveys. Lessons are drawn from strategies used worldwide to improve transparency and accountability in educational management.

The Coming Revolution in Church Economics Mark DeYmaz, 2019-10-15 Our entire understanding of funding and sustainability must change. Tithes and offerings alone are no longer enough to provide for the needs of the local church, enable pastors to pursue opportunities, or sustain long-term ministry impact. Growing financial burdens on the middle class, marginal increases in contributions to religious organizations, shifting generational attitudes toward giving, and changing demographics are having a negative impact on church budgets. Given that someday local churches may be required to pay taxes on the property they own and/or lose the benefit of soliciting tax-deductible gifts, the time to pivot is now. What's needed is disruptive innovation in church economics. For churches to not only survive but thrive in the future, leaders must learn to leverage assets, bless the community, empower entrepreneurs, and create multiple streams of income to effectively fund mission. You'll learn why you should and how to do so in *The Coming Revolution in Church Economics*.

The New Localism Bruce Katz, Jeremy Nowak, 2018-01-09 The New Localism provides a roadmap for change that starts in the communities where most people live and work. In their new book, *The New Localism*, urban experts Bruce Katz and Jeremy Nowak reveal where the real power to create change lies and how it can be used to address our most serious social, economic, and environmental challenges. Power is shifting in the world: downward from national governments and states to cities and metropolitan communities; horizontally from the public sector to networks of public, private and civic actors; and globally along circuits of capital, trade, and innovation. This new locus of power—this new localism—is emerging by necessity to solve the grand challenges characteristic of modern societies: economic competitiveness, social inclusion and opportunity;

a renewed public life; the challenge of diversity; and the imperative of environmental sustainability. Where rising populism on the right and the left exploits the grievances of those left behind in the global economy, new localism has developed as a mechanism to address them head on. New localism is not a replacement for the vital roles federal governments play; it is the ideal complement to an effective federal government, and, currently, an urgently needed remedy for national dysfunction. In *The New Localism*, Katz and Nowak tell the stories of the cities that are on the vanguard of problem solving. Pittsburgh is catalyzing inclusive growth by inventing and deploying new industries and technologies. Indianapolis is governing its city and metropolis through a network of public, private and civic leaders. Copenhagen is using publicly owned assets like their waterfront to spur large scale redevelopment and finance infrastructure from land sales. Out of these stories emerge new norms of growth, governance, and finance and a path toward a more prosperous, sustainable, and inclusive society. Katz and Nowak imagine a world in which urban institutions finance the future through smart investments in innovation, infrastructure and children and urban intermediaries take solutions created in one city and adapt and tailor them to other cities with speed and precision. As Katz and Nowak show us in *The New Localism*, "Power now belongs to the problem solvers."

Henry IV, Part 2 William Shakespeare, 2011-08-23 Henry IV, Part 2 is the only Shakespeare play that is a "sequel," in the modern sense, to an earlier play of his. Like most sequels, it repeats many elements from the previous work, Henry IV, Part 1. This play again puts on stage Henry IV's son, Prince Hal, who continues to conceal his potential greatness by consorting with tavern dwellers, including the witty Sir John Falstaff. As in Part 1, Prince Hal and Falstaff seek to best each other in conversation, while Falstaff tries to ingratiate himself with Hal and Hal disdains him. Part 2 adds some fresh characters, the rural justices Shallow and Silence and Shallow's household. Political rebellion, while important to the plot, does not loom as large as in Part 1. There are no glorious champions; combat is replaced by deception, cunning, and treachery. The authoritative edition of Henry IV, Part 2 from The Folger Shakespeare Library, the trusted and widely used Shakespeare series for students and general readers, includes: -The exact text of the printed book for easy cross-reference - Hundreds of hypertext links for instant navigation -Freshly edited text based on the best early printed version of the play - Full explanatory notes conveniently placed on pages facing the text of the play -Scene-by-scene plot summaries -A key to the play's famous lines and phrases -An introduction to reading Shakespeare's language -An essay by a leading Shakespeare scholar providing a modern perspective on the play -Fresh images from the Folger Shakespeare Library's vast holdings of rare books -An annotated guide to further reading Essay by A. R. Braunmuller The Folger Shakespeare Library in Washington, DC, is home to the world's largest collection of Shakespeare's printed works, and a magnet for Shakespeare scholars from around the globe. Emilia Morgan Lloyd Malcolm, 2023-07-27 'A spicy work of biographical conjecture ... It's also a rousing reminder of the countless creative women who have been written out of history or have had to fight relentlessly to make themselves heard.' EVENING STANDARD 'The great virtue of Lloyd Malcolm's speculative history lies in its passion and anger: it ends with a blazing address to the audience that is virtually a call to arms. It is throughout, however, a highly theatrical piece ... In rescuing Emilia from the shades, [the play] gives her dramatic life and polemical potency.' GUARDIAN The little we know of Emilia Bassano Lanier (1569 - 1645) is that she may have been the Dark Lady of Shakespeare's Sonnets, mistress of Lord Chamberlain, one of the first English female poets to be published, a mother, teacher who founded a school for women, and radical feminist with North African ancestry. Living at a time when women had such limited opportunities, Emilia Lanier is therefore a fascinating subject for this speculative history. In telling her story, Morgan Lloyd Malcolm represents the stories of women everywhere whose narratives have been written out of history. Originally commissioned for Shakespeare's Globe with an all-female cast, Emilia is published here as a Methuen Drama Student Edition with commentary and notes by Elizabeth Schafer, Professor of Drama at Royal Holloway, University of London, UK.

NISHGA Jordan Abel, 2021-05-18 WINNER of the Hubert Evans Non-Fiction Prize at the 2022 BC and Yukon Book Prizes From Griffin Poetry Prize winner Jordan Abel comes a groundbreaking, deeply personal, and devastating autobiographical meditation that attempts to address the complicated legacies of Canada's residential school system and contemporary Indigenous existence. As a Nisga'a writer, Jordan Abel often finds himself in a position where he is asked to explain his relationship to Nisga'a language, Nisga'a community, and Nisga'a cultural knowledge. However, as an intergenerational survivor of residential school--both of his grandparents attended the same residential school--his relationship to his own Indigenous identity is complicated to say the least. NISHGA explores those complications and is invested in understanding how the colonial violence originating at the Coqualeetza Indian Residential School impacted his grandparents' generation, then his father's generation, and ultimately his own. The project is rooted in a desire to illuminate the realities of intergenerational survivors of residential school, but sheds light on Indigenous experiences that may not seem to be immediately (or inherently) Indigenous. Drawing on autobiography and a series of interconnected documents (including pieces of memoir, transcriptions of talks, and photography), NISHGA is a book about confronting difficult truths and it is about how both Indigenous and non-Indigenous peoples engage with a history of colonial violence that is quite often rendered invisible.

The Buddha Within S. K. Hookham, Susan K. Hookham, 1991-01-01 Tathagatagarbha -- Buddha Nature -- is a central concept of Mahayana Buddhism crucial to all the living practice traditions of Tibetan and Zen Buddhism. Its relationship to

the concept of emptiness has been a subject of controversy for seven hundred years. Dr. Hookam's work investigates the divergent interpretations of these concepts and the way the Tibetan tradition is resolving them. In particular she does this with reference to the only surviving Indian commentary on the Tathagatagarbha doctrine, the Ratnagotravibhaga. This text addresses itself directly to the issue of how to relate the doctrine of emptiness (the illusory nature of the world) to that of the truly existing, changeless Absolute (the Buddha Nature). This is the first work by a Western writer to present an analysis of the Shentong tradition based on previously untranslated sources. The Shentong view rests on meditative experience that is inaccessible to the conceptualizing mind. It is deeply rooted in the sutra tradition of Indian Buddhism and is central to an understanding of the Mahamudra and Dzogchen traditions and Tantric practice among Kagyupas and Hyingmapas.

When Can Oil Economies Be Deemed Sustainable? Giacomo Luciani, Tom Moerenhout, 2020-09-30 This open access book questions the stereotype depicting all Gulf (GCC) economies as not sustainable, and starts a critical discussion of what these economies and polities should do to guarantee themselves a relatively stable future. Volatile international oil markets and the acceleration of the energy transition has challenged the notion that oil revenues are sufficient to sustain oil economies in the near to medium term. But what is the meaning of economic sustainability? The book discusses the multiple dimensions of the concept: economic diversification, continuing value of resources, taxation and fiscal development, labor market sustainability, sustainable income distribution, environmental sustainability, political order (democracy or authoritarianism) and sustainability, regional integration. The overarching message in this book is that we should move on from the simplistic branding of the Gulf economies as unsustainable and tackle the details of which adaptations they might need to undertake.
